

DIGITAS

HISTORY

Digitas was originally founded in 1980 as Bronner Slosberg Humphrey Inc. (BSH), a company that grew to become one of the leading traditional direct marketing agencies in the United States. BSH provided services in all forms of direct response media including direct mail, print, alternative media, and DRTV. Since the mid 1980's, it has boasted long-term Agency of Record relationships with American Express, AT&T, Delta Airlines, and General Motors. The agency was renamed Digitas in 1999, a name that combines "Digital" and "Gravitas," with a mission of working with leading brands to successfully navigate the digital marketing environment.

Digitas has been widely recognized as a leader in digital and direct marketing, having been named *Adweek's* Interactive Agency of the Year three times, a One Show Bronze Pencil winner, and as a multi-Cannes Lion's winner, among others.

Today, Digitas is the leading digital marketing and media agency, leading a new generation of creative marketing and media agencies designed to unleash the full possibilities of the digital age. One of the first global interactive agency network, the agency has locations in Australia, Brazil, China, France, Germany, Hong Kong, India, Indonesia, Japan, Malaysia, Philippines, Singapore, Sweden, Taiwan, Thailand, Ukraine, the United Kingdom, the United States and Vietnam. Above all, Digitas is committed to its clients, inspired by their customers, excited by change, and fueled by a passion for collaboration and bold invention—breathing new life into old media.

TIMELINE

- 1980 Direct marketing agency, Bronner Slosberg Humphrey Inc. (BSH) is founded by Michael Bronner
